Hey Joe,

I really appreciate you getting back to me! If you don't mind, I'm going to leave a few of my questions stated below about the Ringwood Mines/Landfill Superfund site. Any information you could provide would be greatly appreciated!

1. Can Ford and other PRPS be compelled to fund relocation as part of the Superfund process?
2. What will be the potential roles of federal, state and local governments in enabling relocation? In funding relocation?
3. Is there a legal basis for the Turtle Clan to demand relocation?
4. What are the constraints on development due to the Watershed Protection designation?

Once again thank you so much for your help. I hope you and your family are staying healthy and safe!

Thanks,
Jillian Connelly

Hi Jillian – I have received your request for information concerning the Ringwood Mines/Landfill Superfund site which you directed to Elias Rodriguez of the EPA. I have served as the EPA Project Manager for the Ringwood site for over 15 years and would be happy to answer any questions you may have regarding the site. Please let me know when you would be available to discuss the site. Attached you will find EPA's Interim Policy on the Use of Permanent Relocations as Part of Superfund Remedial Actions, which you may find useful for your project.

Stay safe.

Joe
